

Customer Engagement Without Borders

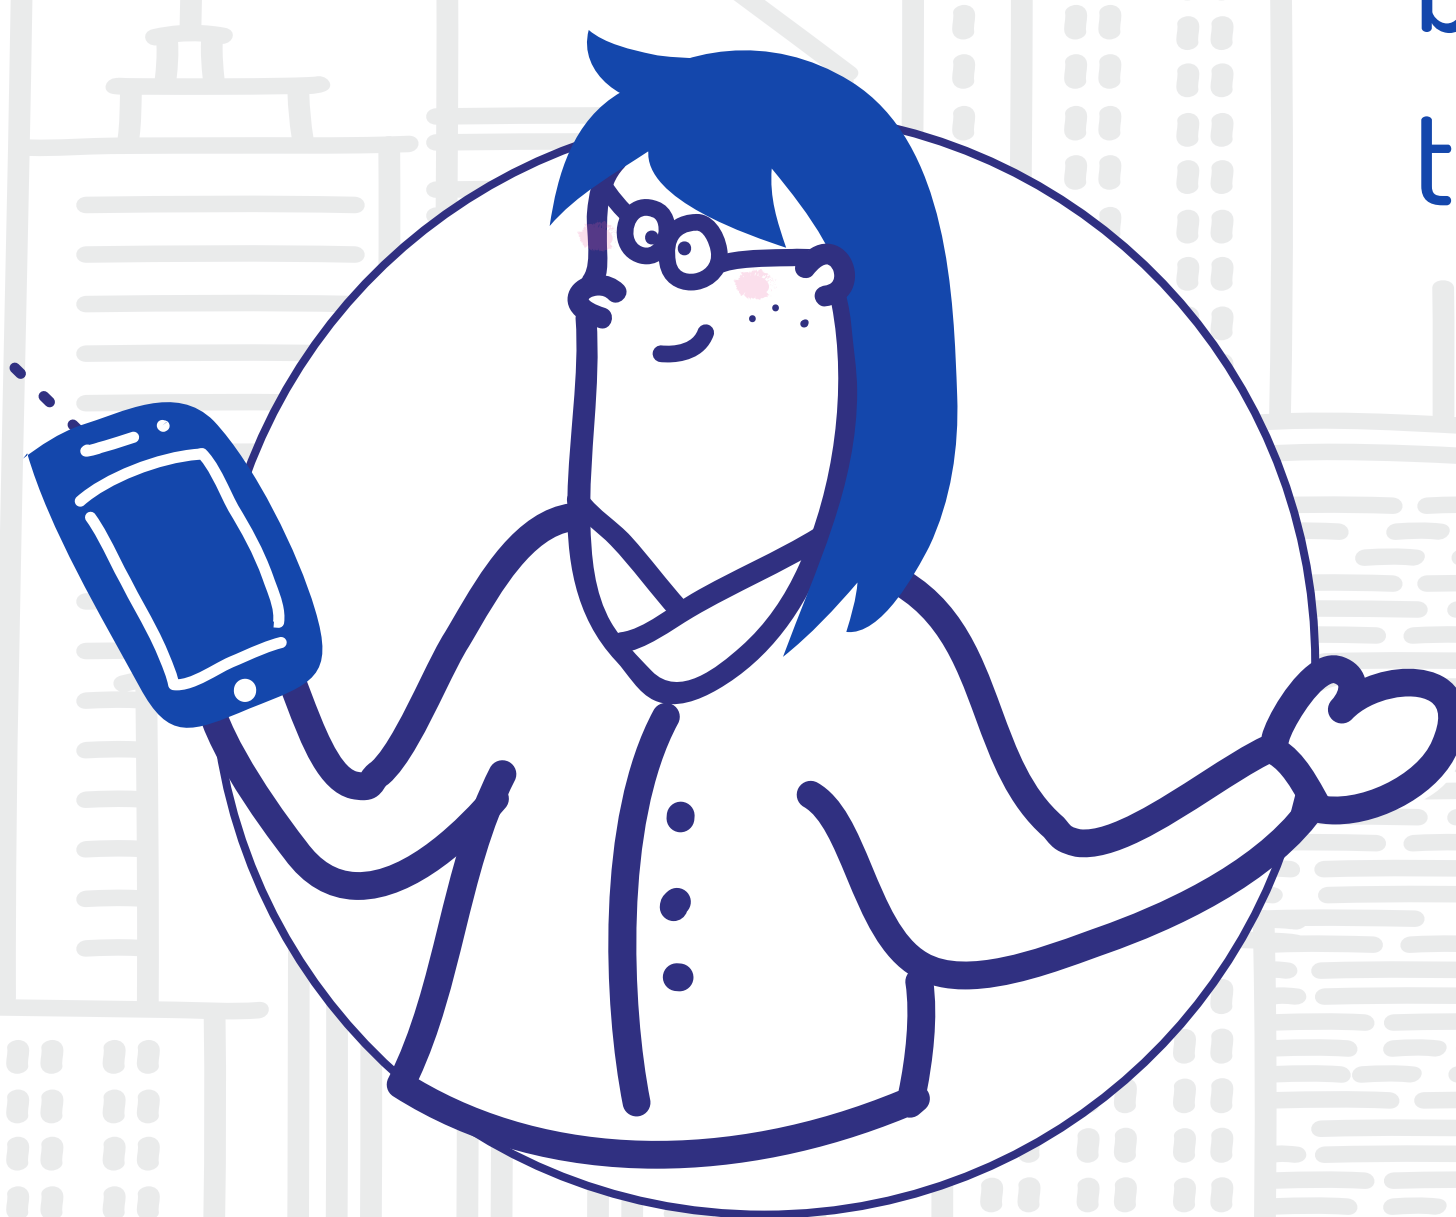

Capture Every Business Opportunity In Today's Digital World

Make It Now | Make It Easy

- Live Communication
- Real Time Collaboration
- Flexible Applications
- Private Cloud Option

UC Now Commuication Limited

Founded by seasoned ICT professionals, we focus on designing & developing software that harnesses the power of unified communication & collaboration for business activities to go virtual. We believe that the key to success lies in how well people are connected to each other, online & offline. We also know that effective virtual engagement needs much more than video conferencing. With this in mind, we aim to constantly come up with revolutionary ideas to help enterprises best use technology to capture every business opportunity in today's Digital World.
